Enablers and indicators of sustainable aviation and prioritization of the sector

Henry Gourdji
Head Strategic Planning Coordination and Partnerships
International Civil Aviation Organization (ICAO)

HLPF 2017 Side event, New York, 19 July 2017
International Civil Aviation Organization

Specialized UN agency

ICAO Member States (191)
ICAO supports 15 of the 17 SDGs
ICAO’s Strategic Objectives

- Safety
- Capacity and Efficiency
- Security and Facilitation
- Economic Development
- Environmental Protection
• Safety remains the focus
• ICAO
  – leads international planning through the Global Aviation Safety Plan
  – monitors safety oversight capabilities of Member States
  – assist Member States improving safety shortcomings
• Innovations for infrastructure and efficient and sustainable operations;

• ICAO
  – leads international planning through the Global Air Navigation Plan
  – monitors air transport gaps and goals of Member States
  – assist Member States and airspace users to increase capacity and improve efficiency
• Critical need to face security challenges
• Innovation and closer collaboration
• ICAO
  – leads policy initiatives on security and facilitation
  – monitors aviation security performance of Member States
  – assist Member States to address security risks and improve facilitation
• Air transport systems designed to improve air connectivity, operated soundly and economically

• Equality of opportunity for international air transport services

• ICAO leads
  – harmonization of the air transport frameworks
  – Consumer protection
  – liberalization of air transport
• Aircraft are 70% quieter
• Aircraft are 80% more fuel efficient
• Endorsement of the Carbon Offsetting and Reduction Scheme for International Aviation (CORSIA)
• Acknowledgement of different capabilities of Countries in Special Situations
ICAO is the custodian agency of indicator 9.1.2

**SUSTAINABLE DEVELOPMENT GOAL 9**
Build resilient infrastructure, promote inclusive and sustainable industrialization and foster innovation

- **Target 9.1** Develop quality, reliable, sustainable and resilient infrastructure
- **Indicator 9.1.2**: Passenger and freight volumes, by mode of transport

Calls for action

• Prioritize aviation in development plans
• Facilitate access to funding of sustainable aviation development projects
THANK YOU
