

## Transformative Approach to LDC Graduation

November 2017

# Transformation Perspective

Unlocking Public and Private  
Finance for the Poor

- Promoting a transformational perspective
- Using local development for equitable economic growth and building human endowments
- Unlocking domestic capital for blended financing which catalyzes structural transformation

# Local Development as a Driver

Unlocking Public and Private  
Finance for the Poor

- Enabling fiscal decentralization to help local governments finance local infrastructure and development
- Using financial inclusion as a means to bridge in households and communities into the local economy
- Reaching out to finance critical constituencies and sectors such as remote areas, youth and climate resilience
- Leveraging technology such as digital financial systems to improve efficiency of safety net payments and

# Domestic capital and blended finance

---

Unlocking Public and Private  
Finance for the Poor

- Opening up the use of growing pool of domestic capital in graduating LDCs to finance local development
- Strategic use of budget support and ODA to incentivize and de-risk the use of domestic capital
- Unlocking the value of public assets to finance investments
- Crowding in private sector to make complementary investments

# UN Capital Development Fund

---
