Key points for alignment and integration:

• The most important alignment of these reporting needs to be at country level
  • We must align and integrate all these global commitments in our national plans and budgets *where it's applicable to national priorities*
  • Countries can use their own national reporting on their national plans as the same process to report on SDGs to also cover SAMOA Pathway, Paris Agreement, Sendai Framework etc
  • Country VNRs are done in conjunction with the review of national Plans
  • Never be afraid to ask for help – South-South Cooperation
    • Vanuatu VNR Peer Review
    • Samoa assisting NZ
